

Residential Buffer: Spence

Location: On the west shore of the Little Rock Channel facing east. It is mostly shady on about two thirds of the buffer.

Planting Date: 7/15/2010

Planning the buffer.

Planting day. The homeowner used string to layout the plants in cluster plantings.

The plant plugs are shown in the specific area they are to be planted.

A big ***thank you!*** to all the volunteers who helped.

Happy homeowners, hard at work!

The next four photos were taken in July 2012, 2 years after planting.

Beautiful ferns in the shade!
